## **Internship – Summer 2012**

IDRI believes in the importance of extending our resources to helping those in our local community. One of the ways we do this is by offering internships to students who want to gain valuable experience in the biotechnology and not-for-profit fields. Our program is one effort in helping to grow the potential of the next generation of researchers and those who will support them in bringing scientific innovation from the lab to the people who need it most.

2012 summer internships will run a 10-week period and interns should be willing to make a commitment of 40 hours per week.

### **Eligibility:**

To be eligible, candidates must be undergraduate students with Junior or Senior status in the 2012-13 academic school year. Entering freshmen, sophomores, and recent graduates are not eligible.

### **Selection:**

Interns are selected competitively on the basis of overall qualifications and interests. Successful candidates will be required to submit proof of U.S. citizenship or permanent residence status prior to beginning their training. Applicants will be notified of their selection by April 15th, 2012.

### **Housing and Transportation:**

Housing support for interns is not offered at this time. However, Interns will be provided with a free transportation pass for use during the duration of their time with IDRI.

### **Application instruction:**

Qualified candidates should forward a copy of your most recent official transcript, cover letter, and resume by March 23rd to [jobs@idri.org](mailto:jobs@idri.org). Reference “Intern 2012” in the subject line.

Before submitting your resume and cover letter, please have the following materials readily available:

- Cumulative GPA
- College courses taken in biology and chemistry (include credit and grade received)
- A brief description of your lab experience
- A single page statement describing your interest in research and biomedical sciences. Include the degree and field of study you plan to graduate in, plans for career or post-graduate education, and any other relevant information that will help us assess your interest.

**Only completed applications will be considered. This includes a resume and cover letter, as well as at least one letter of reference received by March 23<sup>rd</sup>, 2012. No phone calls please.**
